the foot lights.

The Markers.—There was a fair demand for beeves yesterday, and the supply at market full, showing an excess over that of last week. The sales exhibit a slight imprevement in prices. The efferings at the scales comprise 1300 head, of which 250 remain unsold, and the balance, 1950 head, found purchasers at \$1.50 a \$2.75 per 100 lbs., on the hoof, equal to \$3 a \$5.25. There is a brisk demand for live hogs and a fair supply in market. Sales to salters at \$5.25, and in smaller parcels at \$5.37, whilst a slight advance for choice lots is occasionally obtained. Howard street flour continues in an unsertled state, and but few transactions have taken place. On Saturday morning, after the reception of the English advices by the Massachusetts, there were sales of 500 bbls mixed brands at \$6 12t, but holders showed little disposition to operate until the reception of the news by the Britannia, which was received in the afternoon. There was considerable inquiry on Saturday evening, but no sales. Yesterday holders asked \$6.50, and at this rate there was a sale of 500 bbls. It has since been offered at \$6.37; without sales. The market closes duit. The receipt price is unsettled. Some holders of City Mills are willing to sell at \$6.30, and have taken that rate for small parcels. Others ask higher. Grain.—Sales of wheat were made yesterday at 132 a 135 cts. for good to prime reds, and 128 a 132 for ordinary to good. Sales of white, not suitable for family flour, at 135 cts. Corn has advanced considerably. Yesterday there were sales of new white at 72 a 73 cts., and of new yellow at 74 a 75 cts.

Stock Bearn.—The market for Maryland 6's opened yesterday, with sales of \$6000 at 772; then \$10,000 at MARKETS.—There was a fair demand for beeves

yellow at 74 a 75 cts.

Stock Boars.—The market for Maryland 6's opened yesterday, with sales of \$5000 at 77\(\frac{1}{2}\); then \$10,000 at 77\(\frac{1}{2}\); then \$10,000 at 77\(\frac{1}{2}\); then \$5,000 at 77\(\frac{1}{2}\); at which the board closed. Baltimore 6's sold at 100\(\frac{1}{2}\) a 100\(\frac{1}{2}\). A considerable quantity of bank shares changed hands.

PHILADELPHIA, Nov. 25, 1845. Cold Weather-Horrible Accident-Theatricals-Distinguished Arrivals-Stock Market, &c. I unfortunately missed the mail last evening, and con-

sequently my letter was left on hand.

Winter is upon us in full blast, though as yet, he has not commenced his donations of snow. The weather is clear and cold, with a north west wind. Ice has made its appearance in considerable quantities in the gutters, and in the ponds in our vicinity, and large fires, coats, and cloaks, are decidedly in fashion. At present, the indications are of a hard winter, which will ollow the long and pleasant spell with which we have

This morning a man fell through the hatchway, in r. Desilver's book binding establishment, in St. James

This morning a man fell through the hatchway, in Mr. Desilver's book binding establishment, in St. James street, near Seventh, from the fourth story to the ground, and was taken up for dead. I have not yet heard whether he survived his injury.

Augusta made her appearance last night at the Walnut street Theatre, to a crowded house. It is said that she was received with enthusiasm, and performed in selections from the boilet of "Nathalie," after having previously executed some favorite pas. Mons. Frederick assisted in the ballet. I did not see the performance, and of course can only speak from report.

As a counter attraction to the above, Burton brought out at the Arch, an entirely new piece, to Philadelphians, entitled the "Fretty Girls of Ghent." This ballet was got up in magnificent style, and a young lady, but an o'd favorite with our people. Miss Mary Ann Lee, made her first bow ince her riturn from Paris, as the principal character. The house was full, the young artist was received with unbounded enthusiasm and exhibited a grace and finesh, both as a danseurs and an actress, I never saw equalled, except by the inimitable Celeste.

Burton's henefit at the Chesnut to night, and the appearance of the Secuin troups in characters so novel to our citizens, will, it is expected, draw an immense house. "Rob Roy" is the play, with Burton, as Balle Nicol Jarvie; Mrs. Seguin, as Dunna Vernon; Seguin, as McSuart; and Brougham, as Dougat; a cass of character of the very first order. A new piece writen by a gentleman of this city, and celled "Lva, the Page," has been rought out at this establishment, and will probably be parformed several times after to-night.

The Philharmonic Concert last night was well attended, it is doing the hest business of any house in the city.

The case of the Kentucky Bank against the Schuylkill Bank, drags its slow length along in the Equity branch of the Common Fleas. Hon John Sergeant was concluding his speech on behalf of the Kentucky Bank, this morning, and from what I heard of it, he c

The share market was buoyant yesterday, and prices generally improved. To-day the same buoyancy continued. Texas securities were in demand, at an advance on former sales; the 8 per cent bonds reaches 33; the 10 per cents, 36; and the note of the Republic of the Single Star, rose to 20; State 5's improved; and Reading Railroad shares, ‡; Wilmington Railroad fell off; The following are the quotations, showing the principal rise to be in Texas securities.

THE OREGON QUESTION .- The Washington Union of Monday, copies from a Boston paper a speech recently delivered by Mr. Cushing, on this question, which it describes to be an able summary and exposé, and as completely reducing to a nutshell not only the avewed principles of the President, but the arguments of all who have heretofore declared themselves in favor of the "clear and unquestionable" title of the United States to the whole of Oregon. The same journal anticipates that at the great wigwam of the nation, which will convene on Monday next, will reflect the spirit that animated the last House of Representatives, and even indulges in the hope that the distinguished gentlemen who were not before in favor of this great measure, as advocated by a large majority of the Baltimore Convention, will now no longer oppose the views of the administration, or regard the question as one of a sectional character, in the final settlement of which Northern men have more interests-immediate or prospective-than the people of the South. It is intimated that the next message of Mr. Polk will contend that the whole American population will regard this to be quite as important a national measure as was our title to, and occupation of, Texas.

THE FLORIDA CONGRESSIONAL ELECTION -We learn from the Tallahassee Floridian that, although Mr. Cabeil, the whig candidate, has received from the Governor a certificate of election, yet there is little doubt that Mr. Brockenbrough will obtain the seat, on appealing to the House of Representaives. It appears that the official returns from several precincts were not received by the Governor in time to be counted on the day appointed by law: and thus a majority of 51 was snown for Mr. Cabell. Had all the returns been received and counted, Mr. Brockenbrough would have had a majority of about 70. The Washington Union expresses its confidence that, on an appeal by Mr. B. 10 the House of Representatives—these facts being shown—he will obtain his seat-the right of appeal to either branch of Congress, as the case may be, having been designed expressly to insure justice and equity in such cases.

THE PUBLIC PRINTING .- The Washington Union of yesterday, states, in reference to the rumor that Mesers. Blair & Rives were about becoming candidates for the printing of Congress, that "there is not now, nor has there been, any foundation for it. They have no such purpose or wish, and so we are authorized explicitly to state."

DESTRUCTIVE FIRE.—On Sunday night, about eleven o'clock, a fire was discovered in the southwest corner of Mr. Coote's brew house, situated near Blagden's wharf, in the eastern part of this city, which was soon destroyed. The adjoining dwelling, occupied by Mr. Hickey, was also destroyed. We regret to learn that two persons, Mr. Antoine Grinder and Mr. Walter Pumphrey, were seriously injured while laudably exerting themselves to save the property in the brew-house. The property was not insured.—Nat. Int., Nev. 26.

COMMERCIAL.

New York, Tuesday, Nov. 25.

Ashrs.—We notice a few sales to-day at \$3 31; a \$3

87; for Pots, and \$4 31; for Pearls.

Baradstuffs.—The market to-day is a little more colm, and rather hoavier than was expected. Sales of Genesce were made at \$6 87; but this is not general—many holders decline selling under \$8 00; Michigan and Ohio, \$6 75 a \$6 87; Brandywine is quoted at \$7 00; and in Southern, generally, the market is quite active. Wheat seems rather dull. Genesce \$1 50, but not much colled for; Southern, \$1 33. Corn is quite animated. Sales took place at from \$5 a \$7c. per pound. Rye bings \$2 a \$3a. A vessel left Quebec, last week, with \$7.25 barrels of Flour, and, it is said, some forty others are loading. We notice at this port, a much larger shipment of Breadstuffs, by the Henry Pratt, now loading, which, when completed, will be published.

Corros.—There was more enquiry to-day, and holders have displayed a firm attitude. The sales amount to 1,000 bales, and, in some cases, higher rates were demanded and paid.

THOSE ELEGANT RUBBERS—NEW ENTIRELY.—
Mr. N. Hayward, the original discoverer and first inventor of Metalic Insoluble India Rubber, has discovered another improvement in the application, which will puzzle the world to find out, as he has now associated with him a capitalist who will protect his interest. This is the giving to his Metalic Rubber the surface of patent leather, without using the cracking varnish heretofore used. His Shoos, now offered for sale at 25 Maide lane, are without exception the most perfect article of the kind the world ever saw, for sale in quantities to suit, by

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers.—Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth; and it will positively bring in new hair on baid heads by its use, and hair that has been made harsh, and is turning grey or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural celor and brilliance by a few applications of the Fau Lustral.

It is a preservative against beldness, and an infallible cure in all affections of the sku on the head, as dandraff—and for preventing the falling off of the hair and truming grey.

It is the simple produce and inturing grey.
